FUCHUN SECONDARY SCHOOL

MOE SEXUALITY EDUCATION IN SCHOOLS

1. Sexuality Education (SEd) in schools is about enabling students to understand the physiological, social and emotional changes they experience as they mature, develop healthy and rewarding relationships including those with members of the opposite sex, and make wise, informed and responsible decisions on sexuality matters. SEd is premised on the importance of the family as the basic unit of society. This means encouraging healthy, heterosexual marriages and stable nuclear family units with extended family support. The teaching and learning of SEd is based on respect for the values and beliefs of the different ethnic and religious communities in Singapore on sexuality issues.

2. The goals of Sexuality Education are to:

- (i) To help students make wise, responsible and informed decisions through the provision of accurate, current and age-appropriate knowledge on human sexuality and the consequences of sexual activity;
- (ii) To help students know themselves and build healthy and rewarding relationships through the acquisition of social and emotional skills of self-awareness, management of their thoughts, feelings and behaviours, development of empathy for others, possession of effective communication, problem-solving and decision-making skills; and
- (iii) To help students develop a moral compass, respect for themselves and for others as sexual beings, premised on the family as the basic unit of society, through the inculcation of positive mainstream values and attitudes about sexuality.

3. The key messages of Sexuality Education are:
- (i) Love and respect yourself as you love and respect others;
 - (ii) Build positive relationships based on love and respect (which are the foundation for strong families);
 - (iii) Make responsible decisions for yourself, your family and society; and
 - (iv) Abstinence before marriage is the best protection against STIs/HIV and unintended pregnancies. Casual sex can harm and hurt you and your loved ones.

OVERVIEW OF FUCHUN SECONDARY SCHOOL'S SEXUALITY EDUCATION PROGRAMME FOR 2015

4. Sexuality Education is delivered in a holistic manner through the school curriculum. The content for Sexuality Education is grouped into five main themes: Human Development, Interpersonal Relationships, Sexual Health, Sexual Behaviour, and, Culture, Society and Law. You may click [here](http://www.moe.gov.sg/education/programmes/social-emotional-learning/sexuality-education/scope/) (please insert hyperlink: <http://www.moe.gov.sg/education/programmes/social-emotional-learning/sexuality-education/scope/>) for more information on the scope of Sexuality Education in the school curriculum.

5. The subjects that incorporate topics on sexuality include:

- a. Science
- b. Character and Citizenship Education (CCE)

Growing Years (GY) Programme:

- i. "The Teenage Years (2nd Edition)" (Lower Sec) Teaching & Learning resource package
- ii. "Sense & Sexuality (2nd Edition)" (Upper Sec) Teaching & Learning resource package

6. The values and attitudes of our youth towards sexuality are increasingly shaped by their peers, exposure to the media, popular culture and the internet. Adolescence is a complex stage in life as the adolescent attempts to find his/her own identity and often struggles with new social relationships. The period of middle adolescence (generally from 15 – 17 years old) can be a turbulent period for adolescents. The gap between physical and emotional/cognitive maturity may result in a tendency to act on impulse, experiment with various activities (including sexual activities), sometimes without understanding the unpleasant consequences that may arise from such experimentation. The need for peer acceptance can be overwhelmingly strong, and hinder one's ability to act responsibly. Given the pressures faced by the middle adolescent from within themselves and from peers, it is important to build a strong sense of self-worth, personal conviction and an understanding of the possible consequences of sexual behaviour.

7. Through "The Teenage Years" and "Sense & Sexuality" packages, secondary students will have the opportunity to develop a positive self-esteem, develop their character, and expand their understanding and repertoire of skills to deal with various issues related to sexuality, which are of prime concern at this age.

eTeens Programme:

8. *eTeens* is a programme developed by Health Promotion Board, in collaboration with the Ministry of Education, for Secondary 3 students to provide them with accurate information on STIs, HIV and protection from a health perspective. *eTeens* is conducted in two segments – a mass talk segment and a classroom-based programme.

9. Students are taught skills such as decision-making, assertiveness and negotiation to say “no” to sex and negative peer pressure. They also learn that the impact of STIs/HIV extends beyond themselves and involves their family. Abstinence and upholding family values are the key messages. The desired outcome of the *eTeens* programme is that students are empowered to make wise, informed and sensible decisions.

At Fuchun Secondary School, the *eTeens* programme will be implemented as follows in 2015:

Topics/Lessons	Programme Learning Objectives	Time Period (e.g. Term 3 Week 2)
Mass Talk by HPB appointed vendor	<ul style="list-style-type: none"> • Awareness of the different STIs and HIV/AIDS • Modes of transmission • Modes of protection, specifically on how the condom is used • Consequences and impact of STIs/HIV 	Term 3 Week 2

STI (Sexually Transmitted Infections) /
HIV (Human Immunodeficiency Virus)
Prevention Programme in Schools

The Health Promotion Board (HPB) has been conducting an STI/HIV Prevention Programme in schools since 1993. The programme aims to raise awareness on STI/HIV, inform students about ways to prevent infection and discourage risky sexual behaviours.

2. In view of the increasing number of STIs reported among youth aged 10-19 years¹, HPB, in collaboration with the Ministry of Health (MOH) and the Ministry of Education (MOE), developed an STI/HIV programme titled *eTeens*² for students in secondary schools and JC/CIs.

3. *eTeens* comprises an assembly talk and classroom-based learning. It covers information on the transmission modes of STI, the signs, symptoms and consequences of contracting STI/HIV, effective methods of preventing infection including abstinence from pre-marital sex, being faithful to one partner in the context of marriage as well as condom use. It also teaches life-skills such as decision-making, assertiveness and negotiation skills. *eTeens* is conducted in schools by trained personnel from HPB and teachers. A factsheet on the programme, which is available on the MOE website³, is enclosed.

4. If you do not wish your son/daughter/ward to attend this programme, please complete the form on the next page and return it to the school. For any clarification regarding this programme, please email us at hpb_yhp@hpb.gov.sg.

Thank you.

Wise. Informed. Sensible. Empowered

AIMS OF *ETEENS*

1. The Empowered Teens (*eTeens*) programme aims to provide students with accurate information to help them make good decisions in their life choices. It raises awareness and knowledge about the following:
 - a) awareness of the different sexually transmitted infections (STIs) and HIV/AIDS;
 - b) modes of transmission for STIs and HIV/AIDS;
 - c) modes of protection against infection, specifically abstinence and the correct use of condoms;
 - d) skills for decision-making, assertiveness, negotiation to say “no” to peer pressure to have pre-marital sex; and
 - e) consequences and impact of STIs/HIV.

FORMAT OF PROGRAMME

2. The *eTeens* programme comprises two components: a mass talk segment and a classroom-based programme:
 - a) The mass talk segment is conducted by a facilitator engaged by the Health Promotion Board (HPB) from an approved panel. The presentation follows an approved facilitation guide.
 - b) The duration of the mass talk is about 45 minutes. It includes a multi-media presentation, video screening as well as facilitation of key learning points.
 - c) The classroom-based programme for Secondary schools comprises 3 lessons which teach decision-making, negotiation and assertiveness skills. The suggested time for each lesson is about 40 minutes. The classroom-based programme for JC/CI 1 students is a 1-hour lesson, which teaches students the financial, physical and psychological impacts of STI/HIV infection on self and family.
 - d) Training for teachers to conduct the classroom-based programme is provided for by MOE and HPB.
